<h2>Certainly! Here's the information
presented in the first person, as if you were Yash
Dasgaonkar:

I'm Yash Dasgaonkar, and my
professional journey has been nothing short of an
exciting adventure.

Although I graduated with a degree
in Marketing from BMS, which is a non-technical field,
I made the

bold decision to transition into
the world of technology and pursue a career as a full-
stack

developer.

This choice was driven by my
passion for coding, problem-solving, and the ever-
evolving nature of

the tech industry. I believe in
adaptability and constant learning, which is why I
took on the

challenge of becoming a full-stack
developer, even with a non-tech background. It's been
an

incredible journey so far, and I'm
committed to further expanding my horizons and making
my mark in

this dynamic field.</h2>
